PROFESSIONAL SUMMARY

Full Stack Developer (MERN + Java/Spring Boot) graduating in 2026 (CGPA 7.90) with 12+ months of internship experience across three companies. Delivered 5+ web applications spanning job portals, voting systems, and animated UIs. Proficient with Spring Boot, React, MySQL, and MongoDB; familiar with Spring Security, Hibernate/JPA, and Maven. Certified in Generative AI; 100+ LeetCode problems solved. Actively using AI-assisted development tools (GitHub Copilot, Claude, OpenAI Codex). Seeking a Junior Java Full Stack Developer role to ship fast and contribute from day one.

TECHNICAL SKILLS

Frontend: React.js · HTML5 · CSS3 · JavaScript (ES6+) · GSAP · Responsive Design
Backend: Node.js · Express.js · Spring Boot · Java · C/C++
Java Ecosystem: Spring Security · Hibernate / JPA · JDBC · Maven · Collections Framework · Exception Handling
Database: MySQL · MongoDB
Tools & APIs: Git · GitHub · VS Code · Postman · REST APIs · MVC Architecture · Power BI
Cloud / Hosting: Vercel · Netlify · GitHub Pages
AI Tools: GitHub Copilot · Claude (Anthropic) · ChatGPT · OpenAI Codex
CS Fundamentals: OOP · DSA · DBMS · OS Basics

EDUCATION

B.Tech — Computer Science Engineering

Graduation: 2026

Srajan Institute of Technology Management and Science Ratlam · RGPV · Madhya Pradesh

CGPA: 7.90

Higher Secondary Education (Class XII)

Passing Year: 2022

Kamla Nehru Higher Secondary School Jaora

Percentage: 92%

Secondary Education (Class X)

Passing Year: 2020

Shree Madhavanand Academy School Jaora

Percentage: 90%

FEATURED PROJECT

★ JobHub — Full Stack Placement Portal

Stack: React · Spring Boot · Java · MySQL · JWT ·

- Designed a three-role job portal (admin, employer, candidate) with separate dashboards using Spring Boot and React
- Implemented JWT-based authentication with Spring Security for role-based access control and secure session management
- Built 12+ RESTful API endpoints with Spring Boot, integrating a normalized MySQL schema of 8 tables covering jobs, applications, and user profiles
- Managed state and routing on the React frontend, ensuring seamless data flow between UI and backend services

OTHER PROJECTS

Online Voting System · Full Stack

Stack: HTML · CSS · JavaScript

- Built server-side vote validation with session handling, enforcing one vote per user and sanitizing input across all form endpoints
- Implemented protection against duplicate submissions through server-side logic and input validation

E-Commerce Platform · Full Stack — MERN

Stack: React · Node.js · Express.js · MongoDB

- Shipped a fully functional e-commerce platform with cart, product listings, and checkout during the CyberGrow internship
- Applied React state management, Express routing, and MongoDB aggregation through 15+ hands-on modules

K72ca — Fully Animated Website · Frontend

Stack: React · GSAP

- Implemented scroll-triggered animations using GSAP timeline for smooth transitions and component lazy-loading for faster page load

Zomato Clone & Plant Orbit Clone · *Frontend*

Stack: HTML · CSS

- Replicated UI components with responsive layouts across mobile, tablet, and desktop viewports

INTERSHIPS & TRAINING

Java Full Stack Developer Intern — [Cypher Analytica](#)

Nov 2025 – May 2026 · 6 months

- Built and deployed production-grade applications using Spring Boot (backend) and React (frontend) across the full SDLC
- Developed RESTful APIs, handled MySQL database design, and integrated frontend with backend end-to-end
- Gained practical exposure to Spring Security, Hibernate/JPA, and Maven in real-world industry projects

MERN Stack Developer Intern — [CyberGrow](#)

Jan – Mar 2025 · 3 months

- Shipped a fully functional e-commerce platform within 3 months covering cart, product listings, and checkout
- Deepened skills in React state management, Express.js routing, and MongoDB aggregation

Full Stack Python Trainee — [Miracle Infoserv](#)

Aug – Oct 2024 · 3 months

- Completed intensive training covering HTML/CSS, JavaScript, and MySQL; built a Zomato clone and portfolio website as project deliverables

CERTIFICATIONS & ACHIEVEMENTS

- Java Full Stack Internship Completion Certificate — Cypher Analytica (Nov 2025 – May 2026)
- MERN Stack Development Certificate — CyberGrow (Jan – Mar 2025)
- Full Stack Web Development Certificate — Miracle Infoserv (Aug – Oct 2024)
- Generative AI Certification — CyberGrow (7 days)
- 100+ LeetCode problems solved — DSA & problem solving
